Studio Crew Gears Up for Fall Events

By Cheryl DeFilippo & Hugh Hardy
FAA Production Studio Staff

Everything is just around the corner and the FAA Production Studios is gearing up for a great line up of educational presentations for our aviation community of pilots.

Our "Corporate Seminar" Chairman, Don Luehm, has a great lineup of speaker for us for the August 14 program. Featured speakers include Tom Evans, Mike Klasing, Diego Alfonso and Dan Cilli who will present a host of topics for the group.

On Friday, September 3 we are proud to host a "Dedication Ceremony" for the FAA Production Studios Landscape Project. Our honored guests will be Adair Henderson, Billy Henderson, and Dr. Tom Mack. Many hours of hard work went into this project and it is now a reality. We thank all who helped Adair, Billy and Tom to bring this great task to fruition.

The 2004 ASC Planning Meeting

will be held on Saturday, September 4. We encourage all ASC's to attend this meeting for updates on what is happening in the Safety Program and how it affects all the ASC's. We will go over the calendar for 2005 and update you on the new FAASTeam concept.

It's time for our Production Crew members to sign up for the upcoming lineup of programs and pledge your support. Thanks for all you do to make the Safety Program and the FAA Production Studio's a success! *Remember You Make A Difference!!!*
